

KRANOL OPB/V

Product Information

NEATSFOOTOIL

Chemical and physical characteristics

Appearance : limpid liquid 30 °C

Active Principle : blend of natural triglycerides

Active Content : approx 100%

Density (20 °C) : 0,90 - 0,95 gr/cm³

Light Solidity : very good

Solubility in water : insoluble

Storage Stability : about 12 months at ambient temperature

Characteristics

KRANOL OPB/V is a natural oil, without chemical treatment, pared and filtered at low temperatures.

KRANOL OPB/V can be used for the fattening of every kind of leathers.
