

# KRANITAN K C12

## Product Information

---

### CHARACTERISTICS

Appearance	: Beige powder
PH (in solution 1:10)	: 2 - 3
Storage	: dry, well-ventilated area away from heat sources
Storage stability	: 60 months.

### PROPERTIES

**KRANITAN K C12** is a delimer with excellent penetrating power permitting it to act immediately throughout the entire section of the hide, reducing deliming times.

**KRANITAN K C12**, thanks to its high buffer power, can also be used in high percentages with no danger of acid swelling, which makes it particularly well-suited to deliming of full thickness hides.

Hides treated with **KRANITAN K C12** have fine, clean grain.

### USE

**KRANITAN K C12** may be used in concentrations of 0.9% to 2,5%, depending on the type of hide.
