TWX-835

Chemical nature	Water dispersion of casein, waxes and silica
Appearance	White viscous liquid
Solids content	24 \pm 1 %
pH	7,5 – 9,5
Ionicity	anionic

Applicazioni

TWX-835 è una miscela a base di cere, oli e riempimenti da usarsi nelle miscele con resine, in modo particolare sulle pelli morbide, dove si voglia ottenere buona opacità finale. Esplica inoltre buona azione splaccante ma soprattutto riesce a non alterare le caratteristiche di morbidezza delle pelli. Dimostra inoltre una buona reazione alla stampa e per questo molto apprezzato anche su pelli d'arredamento.

Main applications

TWX-835 is very suitable in blend with resins, mainly for soft leathers where good matting effect is requested. It has good anti-tacking action without affecting natural softness of leathers. It also shows good embossing features, which make it very suitable also for furniture articles.

KEEP FROM FREEZING; CAN BE STORE FOR 6 MONTHS BETWEEN +5 AND +35°C.

Our application recommendation are in line with our present state of knowledge and they do not exempt the customer from performing his own tests to determine the suitability of the supplied products for the intended purposes.
